To Those with Whom We Do Business:

It is the obligation of Fellowship Community to annually inform those with whom we do business of a variety of regulations and policies that require your attention. This is to inform you of those obligations and remind you that we encourage your feedback.

Fellowship Community (collectively, the “Organization”) is committed to ethical, honest billing practices and expects every team member (including employees, independent contractors, subcontractors and vendors) to be vigilant in maintaining these standards at all times. It is important that our contractors understand the provisions of a number of laws, your obligation to act under these laws and your right to report if you suspect a violation as well as protections available for those who report violations of these laws. Please ensure your staff are familiar with the below listed laws and regulations.

Compliance Program: The Organization has a compliance program. A core document of any compliance program is the Code of Conduct which covers the compliance issues, laws and regulations and guidelines that are relevant to providers of senior services. This Code of Conduct is relevant to all individuals, including employees, contractors, volunteers, directors and officers.

Excluded Provider Policy: The Organization cannot do business with any individuals or entities sanctioned by the Federal and State Government. It is your duty to inform us immediately if your organization or anyone under your employment is currently or becomes excluded in the future.

Elder Justice Act: Under this regulation it is the obligation of anyone who works for, or contracts with a long-term care community to report to local law enforcement, and to the Secretary of Health and Human Services, their reasonable suspicion of crimes committed against nursing home residents. This reporting must happen in a timely manner.

If the events that cause the suspicion—

Result in serious bodily injury, the individual shall report the suspicion immediately, but not later than 2 hours after forming the suspicion;

Do not result in serious bodily injury, the individual shall report the suspicion not later than 24 hours after forming the suspicion.

Please be sure to inform all of your employees who, in the course of business, are present on our community campus, are aware of these obligations

Deficit Reduction Act (DRA): We are required to comply with the Deficit Reduction DRA. As such we are required to notify our contractors and others of the policies to prevent false claims, retaliation and the rights of whistleblowers. The rules for the DRA include the following;
